

Christensen Irrigation

Primer & Cement

P-70: It's the most aggressive primer commercially available and excellent for cold weather applications.

S\$56.00/Gallon

Weld-On 721: Medium bodied and fast setting PVC cement for all classes and schedules through 6" diameter and 4" for schedule 80. May also be used on PVC foam core pipe.

S\$70.00/Gallon

Weld-On 711: Heavy bodied and medium setting PVC cement for all classes and schedules, through 12" diameter for schedule 80. Good gap filling and medium set allows more time in warm weather.

S\$75.00/Gallon

Telescoping Repair Coupling/Slip Fix

Telescoping Repair Coupling/Slip-Fix, the in-line PVC repair coupling, makes repairing a broken line, installing a valve or adding a lateral or riser fast and simple. There is no need to dig back long sections of pipe to repair a broken line, and a Slip-Fix is easy to install next to fittings where space is limited

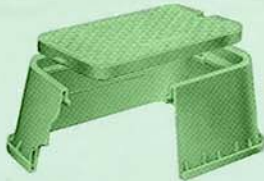

QF-2000

S\$23.00/pc

Valve Boxes

They are versatile, reliable and comes in many sizes and configurations. The enclosures are less than half the weight of conventional polymer concrete vaults, and yet provide the strength and rigidity to meet requirements very cost-effectively.

Model: 1419-12-4 - Rectangular
